EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: In claim 1, line 9, the second occurrence of the term "a" has been changed to -- "a" -- in order to be consistent with the language of claim 2, line 3 in relation to the indication and value of "a".

2. The following is an examiner's statement of reasons for allowance: The claimed invention is deemed allowable over the prior art since the prior art fails to suggest a hose containing the three layers as specified in the claims. The closest prior art to Duchesne et al (6489420) teaches the barrier layer, however, gives no guidance to one of ordinary skill in the art as to bonding it to a KFM fluoroelastomer with the recited terpolymer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
